# A36. TRANSITION REGULATION PLAN

#### (T)

# A36.1 Company *Transition* Regulation Plan

# (T)

## A36.1.1 General

- The following rules shall govern the operations of BellSouth Telecommunications, Inc. (the Company) and its regulation by the Kentucky Public Service Commission (the Commission). This Tariff applies to all regulated services filed with the Commission as listed in A36.1.4.
- Objectives of the *Transition* Regulation Plan (the Plan).

(C)

The objectives of the Plan shall be to:

- Ensure basic service continues to be available at reasonable rates, and shield the basic ratepayer from significant price increases resulting from the changing marketplace.
- 2. Continue to provide high quality service.
- 3. Permit the Commission and the Company to direct their energies to meet customer's needs and enhance efficiency in the provision of telecommunications services throughout Kentucky.
- 4. Provide enhanced incentives to invest in new technologies and services.
- Permit the Company the added flexibility to price competitive services, set depreciation rates, and respond to a changing marketplace.
- 6. Permit all Company retail rates to move toward incremental cost or market price.

(N) (N)

(N)

- Ensure that the potential introduction of competition to all markets in Kentucky is not hindered by the Plan.
- In addition to the provisions in this section (A36) of the tariff, the Transition Regulation Plan also includes gradual rate rebalancing, infrastructure investments, and the introduction of an Economic Development tariff (A2.4.9).

## A36.1.2 Definitions

Term – The Plan, approved as a three year pilot, will continue until the Commission approves revisions.

(C)

(C)

Classification of services - There are three service categories: 1) Industrial, 2) Access, and 3) Retail. See A36.1.4 for the classification of each existing Company service into one of the three service categories.

(C)

- Industrial services are those non-access services that are provided on a wholesale basis to other telecommunications companies (these include Unbundled Network Element's [UNEs] and the resale discount). Also included in the industrial category are Lifeline rates and the Universal Service Fund (USF) rate elements.
  - (C)
- Retail services are all other services that are not classified as Industrial or Access services.

- (C)
- New Service A new service is a function, feature, capability, facility, or combination of these, which previously has not been offered.

Access services are Switched and Special Access services as defined in the Access Services (E) Tariff.

## A36.1.3 Regulations

- Changing Classification
  - The Company is permitted to reclassify services by applying to the Commission. The Commission has thirty (30) days to review the request for reclassification and either approve or suspend the request. If the Commission takes no action within thirty (30) days, the reclassification is deemed approved. When a request for reclassification is suspended, Commission regulations and Kentucky law are applicable to any further Commission action.

#### Tariff Requirements

- Terms and conditions of existing tariffed services are deemed approved and govern the contractual relationship between the Company and its customers.
- 2. All services must cover long run incremental costs except as noted in A36.1.3.B.3.
- The Company may in good faith file for prices below long run incremental cost to meet the equally low price of a competitor. The Company shall file evidence that competitors are charging rates below the Company's long run incremental cost for the service. If the competitive price threat vanishes, within thirty (30) days, the Company shall increase its price to cover the long run incremental cost of the service.

PUBLIC SERVICE COMMISSION OF KENTUCKY **EFFECTIVE**

## A36. TRANSITION REGULATION PLAN

# A36.1 Company Transition Regulation Plan (Cont'd)

#### A36.1.3 Regulations (Cont'd)

- B. Tariff Requirements (Cont'd)
  - 4. The Company shall file tariffs stating the rates, terms and conditions for all new services and for changes to existing services. Such filings for new services will also designate the proposed category and rationale for the designation. The Company shall file with the Commission a long run incremental cost study, demonstrating that the proposed price does not result in a price below long run incremental cost of the service, except as indicated in A36.1.3.B.3. These tariffs shall be filed at least thirty (30) days prior to the introduction of a new service.
    - a. The Commission may, on its own motion, or in response to a petition from an interested party, suspend a new service offering for good cause if the terms and conditions result in public interest concerns. Such investigation shall be initiated within thirty (30) days after the tariff is filed. The Commission shall make a good faith effort to expedite the investigation but shall retain full statutory authority to investigate such issues and to extend the time for the investigation, if necessary.
    - b. New services shall go into effect following the notification period, except if the new service is suspended based on terms and conditions, or public interest concerns. Should the Commission find during the investigation period that a price is inappropriate, the Company may, at the Commission's direction, implement retroactive treatment back to the date the Company offered the service.
  - 5. The Company shall file with the Commission documentation of proposed pricing changes to Industrial or Access Category services, other than those switched access services with an interstate counterpart, demonstrating the proposed change adheres to the rules of the category.
    - a. The Commission may, on its own motion, or in response to a petition from an interested party, investigate proposed changes to tariff prices. Such investigation must be initiated within thirty (30) days after the tariff is filed. The Commission may for good cause suspend the price change if the price violates pricing rules or otherwise is not in the public interest. The Commission shall make a good faith effort to expedite the investigation but shall retain full statutory authority to investigate such changes and to extend the time for the investigation, if necessary.
    - b. The Company shall file with the Commission a long run incremental cost study with price decreases demonstrating that the proposed price does not result in a price below long run incremental cost of the service, except as indicated in A36.1.3.B.2..
  - 6. The Company shall file tariffs for price changes for services in the Retail Category. The Company shall file with the Commission a long run incremental cost study with price decreases demonstrating that the proposed price does not result in a price below long run incremental cost of the service, except as indicated in A36.1.3.B.2. The Commission shall retain full statutory authority to investigate such changes and to extend the time for the investigation, if necessary.
  - 7. In the case of CSA arrangements or Special Assembly filings in order to meet a customer desired due date (CDDD), service may be installed and billing initiated upon the signing of the contract by the customer. The contract will contain the following phraseology:

"This contract is subject to the approval of the Kentucky Public Service Commission. In the event the Commission should modify any rate or provision of this agreement, the customer will have the option of accepting the modification(s) or of canceling the contract."

The Company will render billing from the date the service is installed. If the Commission changes the price, the customer will have the right to accept or reject the new price. Should a customer accept the service at a PSC authorized price, billing at the new price will be effective on the date of the Commission's directive. Should a customer refuse the service at a PSC authorized price, the Company will be required to disconnect the service. These regulations are consistent with those approved by the Commission in its order dated September 28, 2001 in Case No. 2001-077.

For customers with service locations in multiple rate groups within the State, the CSA may include a composite statewide rate based on a weighted average of the applicable business line rates for the rate groups in which the lines are located.

## C. Pricing Rules

- 1. Industrial Category
  - a. Rate changes will take effect following thirty (30) days notice to the Commission.
  - b. The prices in effect on October 1, 2000 for services in this category will remain in effect until proposed rate adjustments are approved by the Commission. Proposed rate adjustments will be appropriate by supporting search information.

- C. Pricing Rules (Cont'd)
  - 1. Industrial Category
    - h. (DELETED)
    - i. (DELETED)
  - 2. Access Service Category

A36.1 Company *Transition* Regulation Plan (Cont'd)

- a. Intrastate switched access rates shall mirror the interstate rates for all future changes effective no later than 30 days of the approved FCC interstate tariffs. Tariffs will be filed to reflect these changes. These tariffs will be effective on the next business day following their filing dates. Rate changes for all other services in this category will be effective following a thirty (30) day notice to the Commission.
- b. The prices in effect on October 1, 2000 for other services in this category will remain in effect until the Commission approves proposed rate adjustments. Proposed rate adjustments (other than for mirroring interstate rates) will be accompanied by supporting cost information.
- 3. Retail Service Category
  - a. The Company shall have full discretion to *propose* the rates, terms and conditions for services in this category based on its assessment of market conditions. Price changes will be effective following a thirty (30) day notice to the Commission. See A36.1.3.B.3 and A36.1.3.B.4 for the rules for suspension or review. *Proposed rate adjustments will be accompanied by supporting cost information.*
  - b. The prices in effect on September 30, 2001 for certain residential services will be increased as ordered by the Commission effective October 1, 2001. The prices in effect for these services on September 30, 2002 will be increased as ordered by the Commission effective October 1, 2002. The prices in effect for these services on September 30, 2003 will remain in effect until the Commission has completed its review of the Transition Regulation Plan three year pilot (see A36.1.2.A), and orders or approves new rate adjustments.

#### D. (DELETED)

- E. Financial Reports/Monitoring
  - The Company shall submit a summary of monthly service objectives, by district pursuant to 807 KAR 5:061. (Effective August 3, 2000, the reporting requirements in 807 KAR 5:061, Section 10(2) and Section 15(1) are eliminated.) The Company's report will also identify exchanges that do not meet the service objectives. If the Company's performance levels for any exchange fall below minimum service objectives for two consecutive months, the Company shall submit a report setting forth the specific action taken (or planned) to correct its performance.
  - 2. The Company may establish depreciation rates at it's discretion. The Company shall submit to the Commission copies of its depreciation filings with the Federal Communications Commission ("FCC").
  - 3. The Company shall file routine quarterly and annual financial reports.
  - 4. (DELETED)
